THE LIMITED ARTIFACT SKULL PIN

The **Mizuho** Head Pin (07-777-04) is precision engineered to reduce artifact and heat generation at high magnetic fields.

Composed of a carbon composite polymer and a minimal amount of titanium, this pin is a solution for all your surgical procedures. It can be used in typical operating room theatres, CT, MR, X-Ray, and Fluoroscopy procedures.

Compatible with Mayfield, Doro, and Mizuho's own Freedom clamp

Competitively priced – 36 sterile pins per box

Secure fit with O-ring design

Easy insertion and removal with hour-glass shape

Maximum effectiveness for CT and MR imaging

Rated MR Conditional
